

**PRESS RELEASE: FOR IMMEDIATE DISTRIBUTION****Millennium Space Systems Appoints Michael Todaro as Director of Mission Operations**

Company Expands its Collocated Mission Operations Center to Service Three Flight Programs

EL SEGUNDO, California—November 1, 2015: Millennium Space Systems is pleased to announce Mike Todaro has joined Millennium as the Director of Mission Operations. Mr. Todaro brings over 20 years of directly applicable on-orbit mission & related ground operations know-how to bolster and operate the Company's growing operations portfolio of US Government and commercial platforms.

“Being part of the Millennium Space Team provides me a great opportunity, both personally and professionally, to apply my experience gained from operating an array of government and commercial missions, and working with different ground control & C3 systems, to contribute to Company's continuing success.” Mr. Todaro's experience includes operations and logistics assignments while on active duty in the United States Air Force and in private industry on such landmark programs as Global Positioning System (GPS), NASA's Tracking and Data Relay Satellite System (TDRSS), MILSATCOM, and National Security Space. Mike's formal training is in Aerospace Engineering and program management.

**ABOUT MILLENNIUM SPACE SYSTEMS**

Millennium Space Systems is a privately held, employee-owned company founded in November 2001, providing alternative, relevant and affordable solutions to today's aerospace challenges. The company designs flight systems and develops mission and system solutions for the Intelligence Community, Department of Defense, National Aeronautics & Space Administrations, and commercial customers.
